

Watership Down Health

Coronavirus Response in Numbers

Throughout the COVID-19 Pandemic, our surgeries have remained open. We have continued to see patients Face to Face and provided additional capacity through new digital consulting solutions.

We opened over the Bank Holiday weekends and worked with neighbouring practices to run the Covid Assessment Centre and Home Visiting/Acute Home Visiting services.

We are now reflecting on our learning and all that we have achieved in the last six months.

Data was gathered Mar 23 – Sep 23 2020 for 18,100 patients registered with the Watership Down Health Partnership.

7,379 Face-to-face
Appointments with a GP,
Nurse or Health Care
Assistant
