

Phio.

Back, neck, bone, muscle or joint pain?

For self-management advice,
visit circlemk.co.uk

If you think you need further investigation for your problem, please ask at reception to see a First Contact Practitioner.

If you think you need physiotherapy, you can refer yourself to the musculoskeletal (MSK) service without having to see a GP or FCP first, using our online digital referral tool: 'Phio' is available online,* 24/7 and captures all the information needed to get you on the right path to resolve your problem.**

Visit phio.eql.ai/provider/circlehealth or scan the QR code below to get started

*You need to have a mobile phone number to use this service.
**Self-referrals are reviewed by specialists; some patients may be directed back to their GP practice for further assessment.
